Summary

Throughout my education life, I have focused on data analysis as well as science and have received extensive training in this field both through university education and special courses. These trainings include Python, SQL, data analysis, statistics, data mining, Power BI, Tableau, machine learning, deep learning, artificial intelligence, reporting and presentation techniques. I have more than 2 years of individual experience in data analysis. In 2023, I did an internship at OneAMZ as a remote data analyst for 3 months. During this internship, I performed and reported product, sales and revenue analyses of individual sellers selling on Amazon and two online stores using the company's software. In addition, with the machine learning model I developed, I predicted whether the sellers would remain in the system with a 65% success rate. Thanks to the deep learning model, I identified the categories of products uploaded to the site with 80% accuracy and made satisfaction groupings with the sentiment analysis model based on the messages left by the sellers.I have work experience in various fields such as data analyst, market sales, logistics support and teaching.

Work Experience

- **Data Analyst 2022 - 2024 Freelancer**
  Upwork
- **Data Analyst   2023 Remote - Intern (3 months)**
  OneAMZ E-Commerce Dropshipping Company / New Jersey, USA   - Website : https://oneamz.com/
- **Logistic Officer   2021 - 2022**
  ITT International Logistics Company / Gebze / Kocaeli / Turkey - Website : https://www.itt.com.tr/
  Collecting incoming commercial vehicle information and product information using Excel, processing them into the relevant programme.
- **Salesperson   2019 - 2021**
  Yapiset Incorporated Company / Gebze / Kocaeli / Turkey
  Sales of products in the market, order, stock status, inventory record, daily turnover, Excel calculation of daily turnover.

Education

- **2022 - Left**   **Department of Chemistry PhD. Student**   Gebze /Kocaeli /Turkey
  Gebze Technical University
  Computitional chemistry, Machine Learning
- **2014 - Left**   **Biomedical Science PhD. Student**
  Istanbul Cerrahpasa University/Biomedical Engineering   Istanbul / Turkey
  ML, DL,Image processing
- **2009 - 2011**   **Master of Science**   Istanbul / Turkey
  Fatih University / Biology   Molecular biology, SCE, Toxicity
- **1995 - 2000**   **Bachelor of Science**   Antalya / Turkey
  Akdeniz University / Biology

Skills

- Python
- PostgreSQL
- Data Visualization
  - Matplotlib
  - Seaborn
  - Tableau
  - PowerBI
- Data Manipulation
  - Excel
  - Data preprocessing
  - Data Cleaning
- Statistics analysis
- Data Minning
- Machine Learning
- Deep Learning
- Computer Vision
- Version control
  - Git
  - Github
- Streamlit
- AWS - EC2
- Heroku
- Docker
- ClickUp
- Agile Methodologies
- Languages:
  - Turkish (Native)
  - English (Intermediate)
- Powerpoint
- Biology

Certification / Courses

- OneAMZ Certificate of Internship /Remote/CERTIFICATE NO: 2023/2-DS004 /DATE: OCTOBER 07, 2023 (3 months)
- Introduction to Data Analysis / Spring Semester 2023 / Science Faculty / Gebze Technical University
- Data Mining, Deep Learning and Applications /Fall Semester 2024 / Computer Eng. Dep. / Gebze Technical University
- Machine Learning, Statistical Data Analysis /Spring Semester 2024 / Computer Eng. Dep. / Gebze Technical University
- C-class occupational safety specialist
- **English courses:** Dialogue English Course Bakirkoy / Istanbul 2010 (6 months) - World Academy English Course /Online / USA 2023 (2 months) - Oxford House - Free English Courses / Online / 2023 (1 year)
